

QUALITY POLICY STATEMENT

Kaby Engineers Ltd is fully committed to operating in ways which places particular emphasis on the safety, reliability and quality of the products we supply. Our primary aim is to conform to our customer's requirements, which will in turn ensure the future growth and prosperity of the Company.

We offer all activities involved in the provision of engineering services at our premises in Leicestershire including high volume batch precision machining, sheet metal work, production of fabricated, welded steel components, low volume precision engineering applicable to any industry but primarily for earth moving equipment.

It is the policy of the Management to provide resources to establish and maintain an effective and efficient quality management system, and by establishing measurable objectives at all levels in the organisation, will generate continuous improvement.

Reviews of the quality management systems will be carried out at defined periods by the management. The quality function is an integral part of all our day-to-day activities and must always remain the focus of our attention.

Every employee in the Company is a responsible member of our team and is expected to ensure the products we supply conform to our contractual, legal and internal quality requirements.

Kaby Engineers Ltd quality management system is based upon the requirements of BS EN ISO 9001:2015 and is intended to assist the customer in assessing our capability of meeting their requirements.

This Quality Policy Statement is available to interested parties upon request.
